Iskalo Development Corp. Announces New Tenant at 63 Park Club Lane

Williamsville, NY – Iskalo Development Corp. today announced the expansion of their holdings within the Main Street corridor in Williamsville and the Western New York area, with their recent acquisition of 63 Park Club Lane. Located across from the Tony Walker Center, and uniquely associated with its bright red color and house-like loft style, consists of 2,738 square feet of professional office space. The location was formerly owned by Prise Properties. Iskalo Development is pleased to announce that tenant, Circulatory Centers New York will occupy the newly acquired property and the office will serve as Circulatory Center’s new flagship facility, as they enter the Buffalo market. “We welcome Circulatory Centers New York as a tenant and we are pleased they have chosen this charming property as their new location.” stated Paul Iskalo, President & CEO of Iskalo Development Corp. The new location is expected to open mid-May.

“We are pleased to be entering the Buffalo market with such a beautiful building in a terrific location. Hopefully, Circulatory Centers, widely recognized as a leader in the diagnosis

and treatment of varicose and spider veins for over 30 years, will offer a much-needed solution to those folks in Western New York suffering from venous disease. Feel free to visit www.veinhealth.com for further information,” stated David Gilpatrick, President of Circulatory Centers.

Iskalo Development Corp. is a full-service commercial real-estate development company active in Western New York and nationally on a client-driven basis. Headquartered in Williamsville, Iskalo Development pursues commercial real estate opportunities in which long-term intrinsic value can be created and will contribute to the betterment of the region. Each project is approached with a strong emphasis on architecturally appropriate, context-sensitive design principles and with a focus on occupant comfort and functionality.
